CoSN has been a fabulous partner to Cisco over the years. Our participation in the CoSN SEND initiative will help schools across the country to implement the right technologies in the right ways to help them transform for the future. CoSN's leadership in this area is truly a value-add as they bring relevance, credibility, and concrete approaches to our education leaders.

--Renee Patton, US Public Sector Director of Education, Cisco

I have worked with CoSN for many years. They are a fantastic organization and are really a good choice for investing your limited corporate sponsorship dollars. They include corporate sponsors in all of their meetings--even their Board has corporate members. They advocate openly for good education / technology policy and provide an excellent set of resources online for everyone's use. Their events are a great place to meet CTOs and learn what's going on in the world of educational technology. I highly recommend making a commitment as a CoSN corporate sponsor and then engaging with the great folks in the Organization.

--Gary Mainor, SVP, Assessment & Instruction, Pearson

CoSN and itslearning's participation in CoSN activities is more than a business relationship; it is a partnership. We believe CoSN is one of our nation's most well-respected thought leadership organizations for educational leadership. While we are positioned as a software platform for K12 Schools, we also share a grander vision to enable educational transformation. A key goal for us is to contribute and learn from the community of outstanding technology leaders and help support the development of "human capacity" to support innovation in the K12 arena. We share a common bond with CoSN's laser focus on creating engaging environments for teachers, students and parents – both in and out of the classroom.
